

I have been a supporter of K-love for 4 years now. Having a station that plays positive, Christ centered music has been instrumental in my growth and sanity. If K-love were to be displaced my source of news and information about interdenominational community activities would be ended. Having this station on the air provides a necessary service to everyone in my local church by allowing us to worship outside of the four walls of our church building throughout the week. Lastly the ministries that K-love partners with are other non profit agencies that are in the business of loving and caring for people and this is in the interest of everyone.
